

# NAZGOL YAZDANPANAH

## JUNIOR FRONTEND DEVELOPER

 Tehran, Iran | Willing to relocate |  [nazgol.yazdanpanah@gmail.com](mailto:nazgol.yazdanpanah@gmail.com) |  +989199654457 |  [LinkedIn](#)

### SUMMARY

Junior Frontend Developer with 1.5+ years of experience building responsive websites and interactive panels using **Angular**, **React**, **TypeScript**, and modern UI libraries. Contributed to projects in social impact, healthcare, education, and media. Focused on clean code, performance optimization, and multilingual, pixel-perfect interfaces, while continuously expanding skills and staying updated with frontend technologies.

### SKILLS

**Frontend Technologies:** Angular, React, Next.js, TypeScript, JavaScript (ES6+)

**UI & Styling:** HTML, CSS, SCSS, Tailwind CSS, Angular Material, PrimeNG, Shadcn/ui

**State & Data Management:** RxJS, NGXS, Zustand, RESTful APIs

**Development Tools:** Jest, Git, Nx, Lighthouse, Jira, Trello

### PROFESSIONAL EXPERIENCE

**Junior Frontend Developer** | Navaak, Full-time 03/2025 - Present

- Collaborated on maintaining and improving an analytics panel built with **Angular**, **NGXS**, and **RxJS** by fixing bugs, enhancing performance, and adding features to support better reporting and user insights.
- Implemented features of a data entry and content panel with **Next.js**, **Zustand**, and **Shadcn/ui**, allowing 5 internal teams to manage music metadata, artist profiles, album info, and editorial content.
- Optimized the landing page of a key company project through **Lighthouse** audits, improving load times by 1.5 seconds while maintaining high visual quality across devices.

**Junior Frontend Developer** | Vikarno, Full-time 05/2024 - 02/2025

- Developed the company's main website using **Angular** and **SCSS**, delivering a pixel-perfect, responsive UI built with reusable components.
- Constructed the entire UI for a charity website from **Figma** designs, collaborating with designers to achieve 98% design accuracy and ensuring responsive performance across all screen sizes.
- Improved frontend integration with **RESTful APIs** and coordinated with the backend team to streamline data management and enhance error handling for a smoother user experience.

**Frontend Developer Intern** | Vikarno, Full-time 02/2024 - 04/2024

- Partnered with functional teams during regular agile sessions, engaging in meetings, and implementing Trello's features, which led to a reduction in overdue tasks from 8 per week to 2.
- Strengthened **Angular** development skills by refactoring components styled with **Angular Material** and resolving UI bugs, leading to faster onboarding and clearer code.

### PROJECTS

#### Araamma

- Co-built a therapy and mental health platform with **Angular**, **RxJS**, **NGXS**, and **PrimeNG** alongside 2 developers; delivered 5+ core features in the first release.

#### Lingo-lab

- Worked with a team to build an **AI**-powered language learning platform with **Angular** and **Nx**, completed in 6 months with a modular architecture to support long-term scalability and feature expansion.

### EDUCATION

**Bachelor of Science in English Translation** | IAUCTB

09/2016 - 06/2020
